

## Job Posting

Symboticware Incorporated is a technology innovation company located in Sudbury, Canada. We are actively developing an intelligent systems platform that will help practitioners implement advanced decision support systems for the natural resources sector. Our hardware/software product line exploits technologies emerging from the embedded systems and artificial intelligence communities to help capture and operationalize deep domain knowledge. Solutions created with these tools support the complex decision making associated with managing natural resource development.

### Senior Software Developer – (2) Contract Positions

Symboticware has an immediate need for 2 experienced software developers to work on a contract basis, 20-40 hours/week. The primary responsibility of these positions is to carry out the first phase of a new product development initiative.
